Note: * Fits Dodge with raised doors only

IMPORTANT: The appropriate lift for a specific vehicle can be selected only after the floor to ground travel and vehicle door dimensions are known. These measurements should be verified and **not assumed**, since vehicles of the same make and model can have substantially different heights due to oversized tires, heavy suspensions, 4-wheel drive conv., booster springs, raised body kits, etc. If you have any questions please call our Product Support Department (800-322-2884).
